

Save Water

**Don't contaminate water
by adding colour or other
pollutants**

Don't waste water

**Don't keep tap open while
brushing teeth, washing
face or shaving**

**Avoid shower &
swimming pool bath**

**Keep taps closed
when not in use**

**Clean vegetables,
utensils & clothes in a
pan instead of running
water**

**Avoid vehicle washing with
potable water**

**Avoid floor & driveways
washing daily**

**Cut down the amount
needed for flushing**

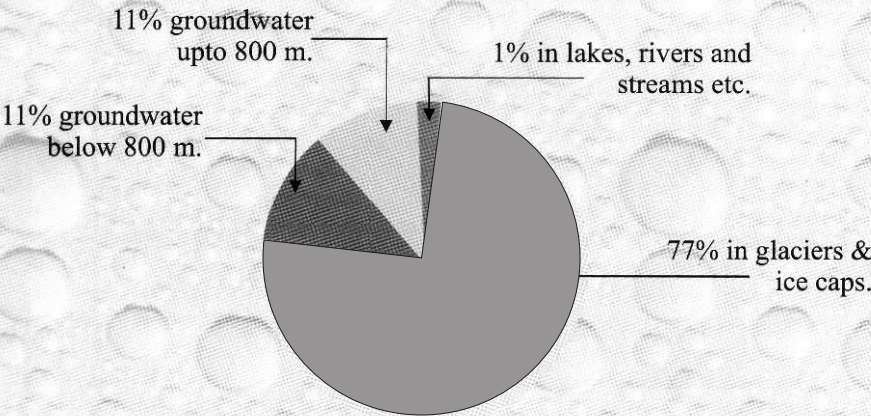

Prevent leakage

TOTAL WATER ON EARTH

of the total water on earth only 3% constitutes freshwater.
Rest is saline water in the oceans.

DISTRIBUTION OF FRESH WATER ON EARTH

- 11% of the total freshwater on earth is groundwater available upto a depth of 800m which can be extracted for use.
- Mindless extraction and over exploitation of very small quantity of this precious nature resource has caused a rapid depletion and deterioration in its quantity and quality both.
